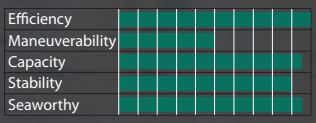
Kev UL - Skin - Silver Alum - Web, Fixed - Removeable Center Seat - Foot Brace



Minnesota 3

Designed for three paddlers and their gear, the 20-foot Minnesota 3 travels faster, with less effort, than most tandems. A Boundary Waters Canoe Area campsite maximizer, the MN 3 will allow that ninth camper to come along while following the nine people, four canoes regulation.

A sliding bow seat, fixed stern seat, and removable center seat accommodate three paddlers comfortably, and you can even add a fourth if the whole family wants to come along. This is a fine cruising canoe that will hold all the gear and people you want to take.
