SPIRIT II

Like a Swiss Army knife, the Spirit II does everything. As efficient as a long-hulled canoe and as maneuverable as a short one, the Spirit II strikes a balance between all good things. Roomy enough for Boundary Water trips, it's even more stable when loaded.

No wonder Canoe & Kayak Magazine said, "If you could have only one canoe to serve all your needs for the rest of your life, the Spirit II would be one of the very few candidates." Maybe that's why we sell more Spirit II's than any other model.
