SOLO PLUS

For people who want both the freedom of a solo canoe and the companionability of a tandem, we designed the Solo Plus. It works well both ways. As a solo, it's a stable, efficient touring hull with the capacity to carry a tent, food, sling-chair and fishing gear for a week.

Paddled tandem, it's an efficient performance design that makes getting there together a pleasure. If you're looking to get two canoes for the price of one, the Solo Plus is the boat for you.

{ GENERAL TOURING }
